# RESEARCH OPPORTUNITY

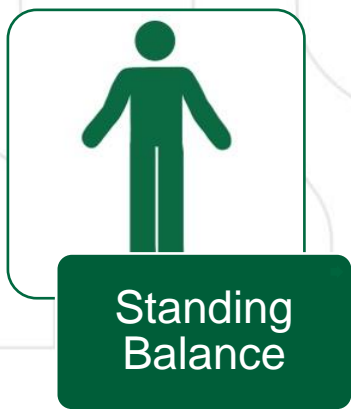

## PARTICIPANTS NEEDED FOR RESEARCH ON CONCUSSIONS

Concussion history or not, we need your help!

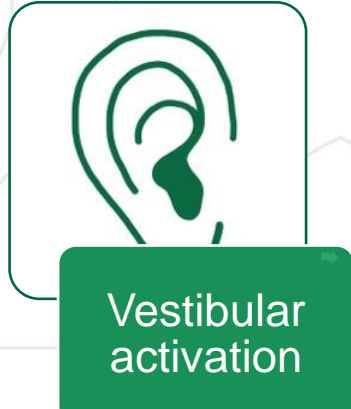

Please consider volunteering for a study on balance, vestibular activation and reaction time.

As a participant in this study, you will be asked to come to Craven Sport Services where we will assess your balance and reaction time!

Your involvement will include one 60 minute session and one 30 minute session (10 days apart) and you will complete balance testing in each category:

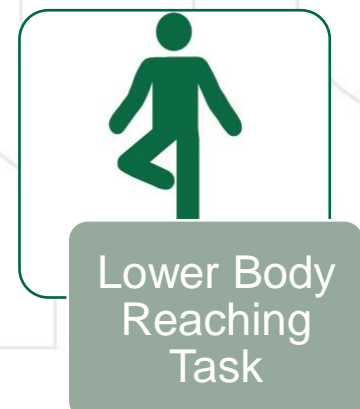

Standing Balance

Vestibular activation

Upper Body Reaching Task

Lower Body Reaching Task

Scan the QR code to volunteer for this study!
